City Receives TDOT Enhancement Grant

The City of Sevierville was recently awarded a significant TDOT Enhancement Grant to construct Phase Three of the East Sevierville Pedestrian Inter-Connector (ESPiN). The project is part of the City's comprehensive alternative transportation and recreation trails network that includes the popular Memorial River Greenway along the banks of the West Prong of the Little Pigeon River.

Police Department Offers Rape Aggression Defense Class

The Sevierville Police Department has scheduled an 8-hour Rape Aggression Defense (R.A.D.) class for women on Saturday, August 29, 2015, from 8:00AM - 4:00PM, at the Sevierville Civic Center in the City of Sevierville Municipal Complex. The class is free of charge and is open to all interested women. The purpose of the class is to develop and enhance self-defense options, so they may become viable considerations to a woman if she is attacked.

Fire Department Offers CPR/AED Class

The Sevierville Fire Department (SFD) is offering citizens an opportunity to become certified in CPR/AED and also learn some fire safety tips from the pros. The SFD has scheduled a classroom-based CPR/AED course open to the community on Saturday, September 5, 2015 from 8:30AM-12:30PM at Fire Station 1 (main downtown station), 122 Prince Street. The class fee is \$20.00/person (checks payable to the City of Sevierville), which includes all class materials and a certification card.

In this classroom-based course, participants will learn to recognize several life-threatening emergencies, provide CPR to victims of all ages, use an AED, and relieve choking in a safe, timely and effective manner. Increasing public awareness of the importance of early intervention and ensuring greater public access to defibrillation will save many lives. Educating providers, caregivers, and the general public on how to respond to these emergencies.

To register or for additional information, please call or email SFD Training Officer **Mike Williams** at 865-868-1713.

Five-Year Paving Plan

The Public Works Department compiles a Five-Year Paving Plan, determined by using a comprehensive road condition rating system. The system takes into consideration a number of important factors such as road surface condition, traffic volumes and available funding. Each year, Public Works staff re-evaluate the roads and revise the plan accordingly.
