City Proposes Changes to City Charter

City of Sevierville residents who have registered to vote will have an opportunity to vote on two proposed changes to the City charter on national election day, November 8, 2016.

Under the current charter, City Aldermen are elected based upon who receives the most votes in a given election. If there are two Aldermen seats open, the top two vote recipients overall are elected. The proposed charter change would require candidates to choose a specific seat to run for and the top vote recipient for that particular seat would be elected.

The second proposed charter change would allow the Board of Mayor and Aldermen to set

the dates and times of regular board meetings by ordinance, instead of the current requirement of changing the City charter to set new regular meeting dates and times. This will allow the Board more flexibility to set regular meeting dates and times that would benefit the schedules of residents and Board members.

Police Department Thanks Community For Support

Over the past year, organizations and individuals across our country have demonstrated their support for law enforcement. In Sevierville, we have seen a heartfelt outpouring of appreciation for our officers, especially during the last several weeks. We are so fortunate to be able work in an incredible community. You and your families mean everything to us, and to know that you stand with us strengthens our fortitude and reminds us of our ultimate purpose-to serve and protect you each and every day. We cannot thank everyone enough for all of your prayers, kind words, cards, messages and food.

LED Light Fixtures Installed at Municipal Complex

The City of Sevierville Department of Parks and Recreation has completed installation of new LED light fixtures at the Municipal Complex.

In December 2015, the City requested a TVA audit to determine the feasibility of replacing the fifty high pressure sodium fixtures throughout the Municipal Complex parking areas with LED fixtures. The TVA audit was completed in January; auditors estimated the City could save approximately \$4,000.00/year in utility costs by converting to LED fixtures. [Read more](#).
