Focus on Home Fire Safety During Fire Safety Week

October 8-14 is Fire Prevention Week and the Sevierville Fire Department offers the following information to help keep you safe at home.

In a fire, seconds count. Seconds can mean the difference between residents of our community escaping safely from a fire or having their lives end in tragedy. Practice your home fire drill twice a year. Conduct one at night and one during the day with everyone in your home, and practice using different escape routes. Teach children how to get out on their own in case you can't help them. Make sure the number of your home is clearly marked and easy for the fire department to find.

Close doors behind you as you leave - this may slow the spread of smoke, heat, and fire. Once you get outside, stay outside. Never go back inside a burning building.
